### PROFILE:

I am a professor of woodwork at a college called [Gifu Academy of Forest Science and Culture \(GAFSC\)](#) since 2006. Gifu Academy is a higher educational institution established by Gifu prefectural government to provide practical multidisciplinary education in the fields of forestry, environmental education, wooden architecture, and woodwork. The objectives of the school are to produce graduates who can develop innovative and sustainable ways for communities and individuals to use forest and wood resources. GAFSC has a partnership agreement with the [University of Applied Forest Sciences Rottenburg \(Hochschule für Forstwirtschaft Rottenburg, HFR\)](#) in Germany.

I teach basic woodworking technique, how to use hand tools, how to make chairs, etc, at GAFSC. The average age of my students is in their 20's to 50's.

Besides teaching, I have several focus areas in my research. One is to preserve traditional skills of professional craftspeople and to pass them on to the next generation. For this purpose, I am building a network of woodworking educational institutes in Japan to develop the quality of education. Woodworking is taught at various institutes, such as vocational schools and art universities, but there is little exchanges among them.

In addition, I established a non-profit organization called [GINOWA](#) (meaning “circles of skills”) in 2024 to help traditional craftspeople solve their problems.

Another focus area is to spread the joy of woodworking to a wide range of people through “green woodworking”. Green woodworking is a way of making small crafts and simple furniture by using green wood and hand tools. I learned this method in the UK and started promoting it in Japan since 2006. The population of Japanese green woodworking fans keeps growing.

## EDUCATION:

April 1999 – March 2001 [Shinrin Takumijuku](#) (private woodworking college)

April 1986 – March 1991 [University of Tsukuba](#)

Bachelor of arts in international social sciences.

## WORK EXPERIENCE:

February 2024 – present

Representative director of a non-profit organization GINOWA (meaning “circles of skills”). The organization supports traditional craftspeople in solving their problems under a contract with Gifu prefectural government.

April 2006 – present

Full time woodwork teacher at Gifu Academy of Forest Science and Culture (GAFSC), teaching basic skills and knowledge of hand tools, and craft and furniture making, etc.

September 2004 – February 2006

Full time woodworker at Borders Forest Trust / Woodschool, Scotland, United Kingdom, made crafts and furniture for the gallery owned by the trust.

April 2004 –September 2004

Full time woodworker / office assistant at [David Colwell Design](#), Wales, United Kingdom, prototyped chairs, making drawings, building a website, for David Colwell.

September 2001 – March 2004

Full time woodworker at James Winby Furniture, England, United Kingdom, made specially commissioned furniture.

April 1991 – March 1999

Full time TV program director at NHK (Japan Broadcasting Corporation), Japan’s biggest public TV station, produced news documentary programs.
